EDUCATION

Sri Eshwar College of Engineering	B.E ECE	CGPA 8.63 (till 5th Semester)	2023-2027
Jairam Public School	AISSCE	78.6%	2022-2023
Sri Swamy International School	AISSE	96.2%	2020-2021

INTERNSHIPS

RAMPEX - MERN 2025

Gained hands-on experience with the MERN stack, building a solid understanding of full-stack application architecture, secure authentication and authorization, role-based access control, cloud-based data management, real-time functionality, and responsive user interface design.

CLOUD COMPUTING – AWS 2025

Completed an AWS Cloud internship with a particular emphasis on designing scalable and secure cloud architecture. Gained hands-on experience developing custom VPC topologies, setting load-balanced EC2 environments, integrating RDS databases, implementing fine-grained IAM policies, and constructing high-availability deployments that adhere to industry best practices.

PROJECTS

FLOWDOCS: Real-time Document Collaboration Platform - [GitHub](#) 2025

A modern MERN stack-based platform for real-time document editing and collaboration. FlowDocs allows several users to modify documents at the same time with real-time synchronization via WebSockets and MongoDB Atlas cloud storage. Its flexible user interface and role-based access provide smooth teamwork, safe content sharing, and cross-device productivity.

Key Skills: MERN Stack Development, Real-time Collaboration, WebSockets, State Management, Cloud Deployment

AIRA: AI Becomes Your Eyes - [GitHub](#) 2025

A next-gen assistive intelligence platform built with Flutter, React, and a Flask-Python backend to aid visually impaired users. The software-only system leverages computer vision for real-time object, face, and text detection, providing voice feedback via TTS for situational awareness. Integrated with Firebase for authentication and data sync, AIRA delivers fast, reliable, and accessible AI interaction entirely through mobile or web devices.

Key Skills: Computer Vision, Flutter & React Development, Python Flask, Cloud Deployment, IoT Prototyping with ESP32

CERTIFICATIONS

Python for Development	UDEMY	2025
Web Development with MERN Stack	UDMEY	2025
AWS Cloud Practitioner	UDEMY	2025
Algorithms Design using C and C++	UDEMY	2024
AWS Solution Architect Associate	UDEMY	2026
DevOps From Scratch to Mastery	UDEMY	2026

CODING ACHIEVEMENTS

LeetCode	- 500+ Problems, 50+ Contests, 1630 Max Rating	Profile
Hacker Rank	- ‘5’ Star Python Coder	Profile
CodeChef	- 100+ Problems, 5+ Contests	Profile
Skill Rack	- 600+ Problems, 2 Certificates	Profile

SKILLS

Languages	- Python, Dart, C, C++, Java, JavaScript
Query Language	- MySQL, PostgreSQL, MongoDB
Web Technologies	- HTML, CSS, React, Node, Express, Tailwind CSS, Spring Boot
AWS Cloud	- EC2, VPC's, Auto Scaling, Load Balancing, Cloud Formation
CS Foundations	- OS, DBMS, OOPS, DAA, LLD, CN
Coding Tools	- VS Code, Canva, GitHub, Git, PyCharm, Postman
